Bugheera meets Moti

Once upon a time, in a lovely city called Bengaluru, a story of 51 dogs caught the attention of everyone in the city.

In an apartment complex, there were many dogs who were pets of the owners. One such pet was a dog named Bugheera. He was a friendly dog and was a German Shepherd. He was 3 years old and his fur was brown in colour which was very soft. His favourite food was chicken.

There was another pet in the apartment complex by the name of Moti. She was a friendly dog and also was a German Shepherd. She was 3 years old and her favourite food was Parle-G biscuits.

One day, Bugheera's owner, Sanjeev was taking Bugheera for a walk. Bugheera saw Moti also walking down the path. He pulled Sanjeev and was chasing Moti's owner, Parvati. Bugheera was going so fast that Sanjeev left Bugheera's leash and fell into the lake. He came out of the lake and was chasing Bugheera. When Parvati stopped at the lake, Bugheera hid under the bench. Parvati was sitting on the bench. Moti found Bugheera and both of them started to play. In the meantime, Sanjeev got very angry and told Bugheera to come with him. Bugheera refused to go as he first wanted to finish playing with Moti and then go with Sanjeev.

Finally, Bugheera went home but was happy he made a new friend, Moti. Moti also wanted to continue playing with Bugheera and make friends with him.

The next day, Bugheera and Moti met again when their owners came out for a walk. This time, they played with a ball for a long time and ran across the park trying to catch the ball.

This way, Bugheera and Moti became very good friends and it was the start of good times to come.

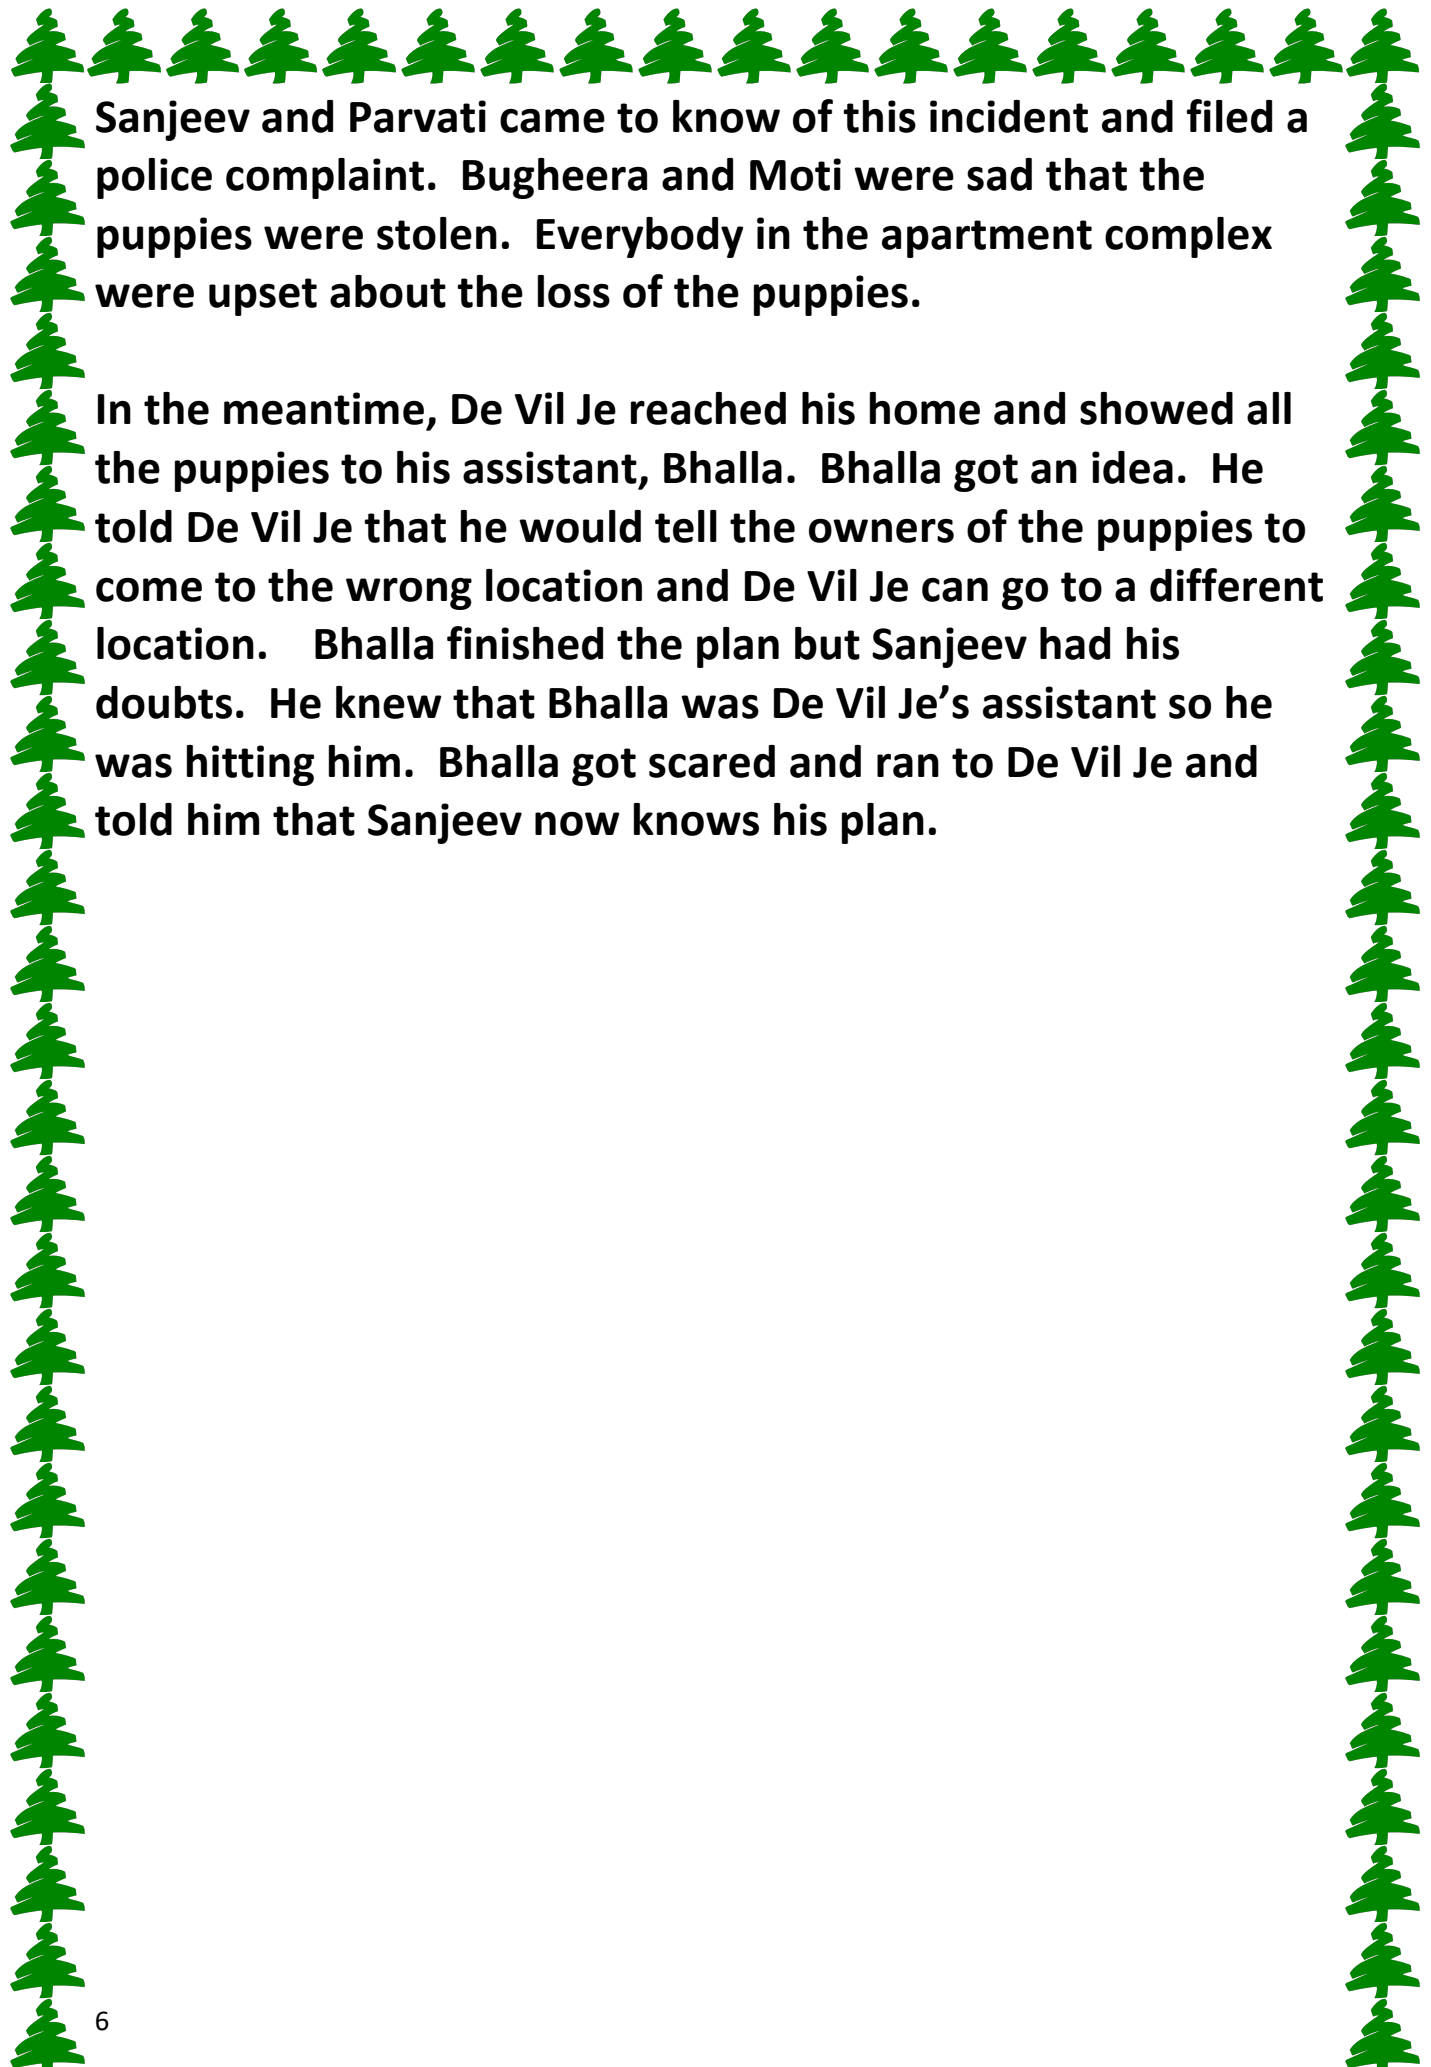

Moti has new puppies

One day, Moti was playing with Bugheera and they both were having a good time. Moti was pregnant with puppies and she had 51 puppies. The kids in the apartment complex were very excited to see so many puppies and many were interested in taking them as pets in their own homes. The news of the 51 puppies made news around the city.

A thief, Cruel De Vil Je who made a living of selling new-born puppies also saw this story and lived very close to this apartment complex. He thought it would be a great idea to sell all the puppies and make some good money. He hatched a plan to steal the puppies. He surveyed the apartment complex and saw that Bugheera and Moti along with the puppies were in the park in the apartment complex and this would make it very easy for him to steal the puppies.

Cruel De Vil Je decided to steal the puppies on a Monday as everyone would be at work. He chose the afternoon when it would be quiet and entered the building disguised as a delivery truck person. He went to the place where Moti and Bugheera were and started to give the puppies milk which was laced with a medicine to make them sleep. The puppies started to drink the milk but Bugheera and Moti got suspicious and started to bark. In a very short period of time, Cruel De Vil Je stole all the puppies as he was an expert and the puppies were too small to fight back. Bugheera was biting De Vil Je to stop him from stealing the puppies. However, he climbed the truck and escaped with the puppies before Bugheera could catch him.

Sanjeev and Parvati came to know of this incident and filed a police complaint. Bugheera and Moti were sad that the puppies were stolen. Everybody in the apartment complex were upset about the loss of the puppies.

In the meantime, De Vil Je reached his home and showed all the puppies to his assistant, Bhalla. Bhalla got an idea. He told De Vil Je that he would tell the owners of the puppies to come to the wrong location and De Vil Je can go to a different location. Bhalla finished the plan but Sanjeev had his doubts. He knew that Bhalla was De Vil Je's assistant so he was hitting him. Bhalla got scared and ran to De Vil Je and told him that Sanjeev now knows his plan.

The Puppies Come Home

The next day, the police found De Vil Je with the puppies at his base. The police arrested him and took the puppies from him before he could sell them off.

The police returned the puppies to Sanjeev and Parvati. Bugheera and Moti were so happy to see all the puppies! Everyone in the apartment complex was also very happy. The puppies grew up and many in the apartment complex adopted them.

The story was told by many in the years to come about how 51 puppies had an adventure when they were born and how it made their apartment community come together!

About the Author

Anshul Akella was born in Bengaluru and is currently studying in class IV at the National Public School, Koramangala. He is an avid pet lover, plays football and enjoys spending time with his friends and family.
