

PROBLEM WITH THE CARS

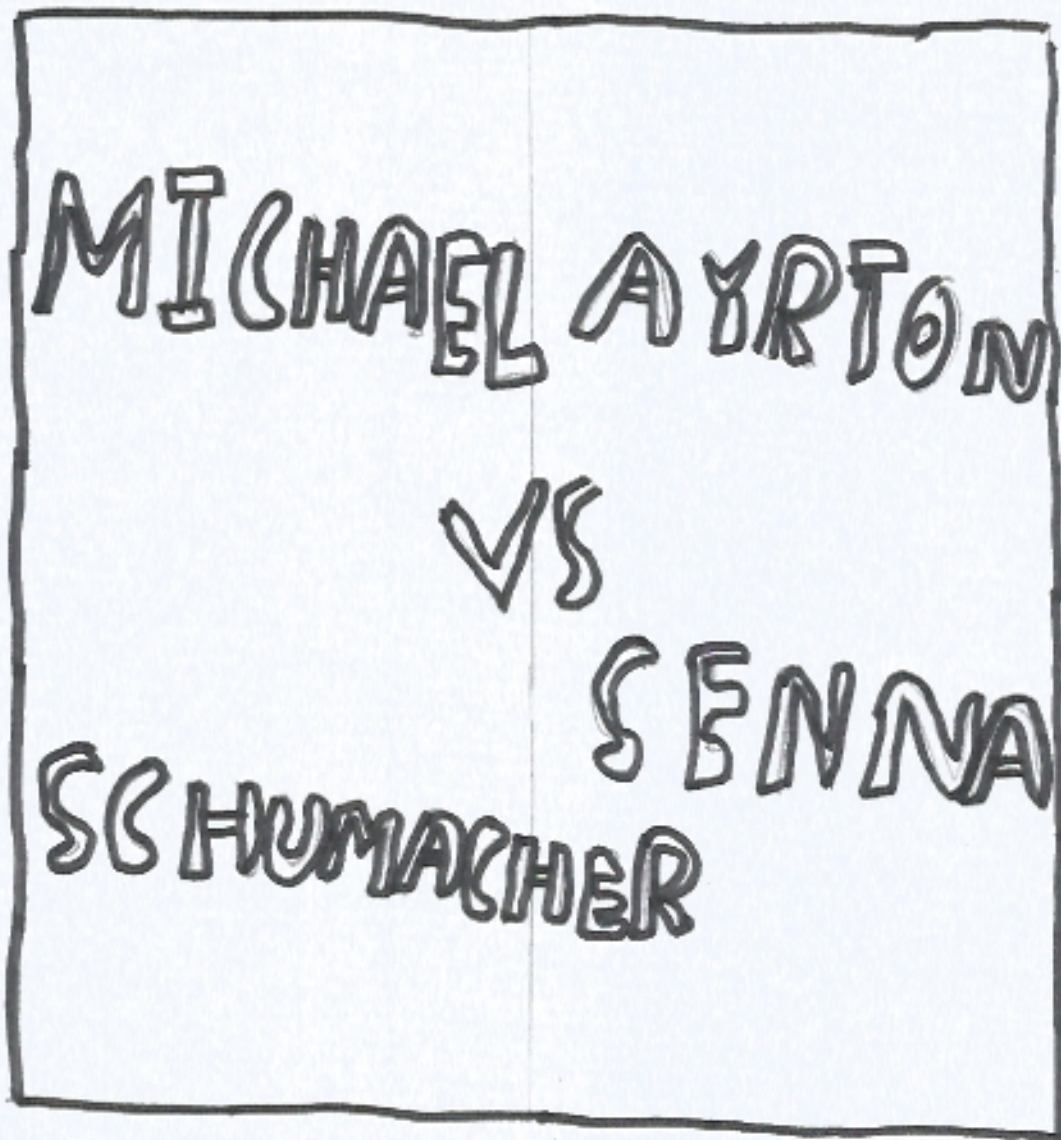

Written and Illustrated by
Shreeyash Kumar Tiwari

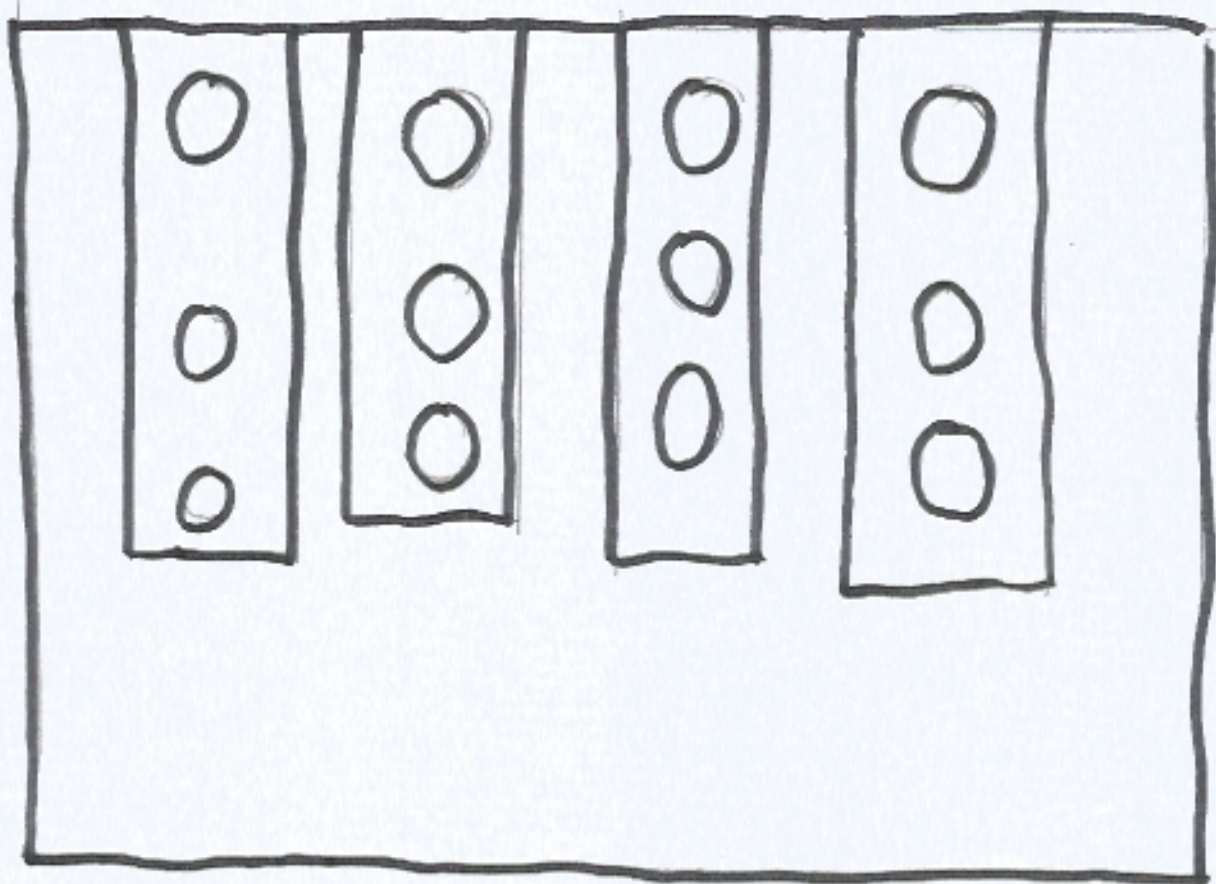

Once, there was a man who wanted to start his own car company. He had enough money to hire people and all that. So, he started his own car company. He even gave ads for his car company. But, there was a problem. The cars didn't sell!!!! One day a car inspector came to see how good the cars were. And when he came, he inspected each and every part of a brand new car and told the founder that he had to close his car company. But, the founder said to give him just a month, and the inspector could come back and check the cars. But, the inspector told that he was fine with a month, but he would not come and inspect the cars, but he would choose any driver and make him drive the car that he just inspected and race Ayrton Senna (World's best driver) who would be driving the McLaren Senna. And,

whoever driver he is choosing has to win the race, and then only his car company will not close down.

Now, he and his teammates spent a lot of time making the car good for the race at Suzukia Circuit , Japan. After a month's time they took the car all the way to Japan. They got the car to Suzukia Circuit in a humungous hauler. Michael Schumacher (World's second best driver) the driver they had chosen was waiting for them over there. Everyone had come to watch the race and many cameramen were standing at different places and there was also a helicopter hovering above with a camera facing downwards to the track. On your marks GET SET GO!!!!

And they are off and in the starting and Ayrton Senna smashes into Michael Schumacher and he goes spinning back to the starting line and is trying to catch up with Ayrton Senna and he still was trying to catch up with him until the end of the last lap when he finally catches up with Ayrton Senna and smashes into him for revenge and he goes drifting in the sand and Michael Schumacher is in the lead but he loses control and smashes into the wall and tips his car over but here comes Ayrton Senna and pushes him past the finish line even though I think that Michael Schumacher got in his way and Ayrton Senna didn't mean to push him past the finish line and anyway Michael

Schumacher has won and the company is saved and can still produce more cars and even Ayrton Senna looks pretty happy.
