*At night they made beds out of leaves, twigs and etc. the next day the whole family went food hunting in pairs. Miku - Chiku, mama squirrel -papa squirrel, grandma squirrel - grandpa squirrel went in pars. As Miku and Chiku were walking they heard a strange sound, they walked towards it. Suddenly! Came out hopping two pleasant frogs. Just as the two squirrels and the two frogs saw each other they screamed "Ahhh!!!"As they stumbled into each other. They screamed for a long time, after a few minutes Miku realized that they were just frogs who were lost! So he told the two frogs and his brother Chiku to stop screaming. Once they stopped screaming Miku told Chiku they are just rabbits. "What"! Exclaimed Chiku while he was looking at the two frogs. Then the two squirrels asked the rabbits if they can help them hunt for food, the rabbits agreed, then one of the frog said sadly " in return we want a place to live, because there is no space in any pond, the reason for this is that all the other frogs don't like us and the only ponds that are free are the poisonous ponds" "Ok" said the two squirrels.*

So the four of them went in search for food. Everyone found a small fruit in a few trees from which the family of Miku and Chiku can survive for almost a week or two. After they finished hunting for food Miku and Chiku they helped the two frogs who were lonely find a home a nice pond. Every pond the four of them went the two frogs were not allowed, although Miku and Chiku convinced them. They kept on walking until they came upon a pond that the two frogs never came upon and or the last time Miku and Chiku convinced the frogs who lived in the pond they agreed! " it was a miracle" said both the frogs. From that day onwards both the frogs and the squirrel family lived happily in their new home!
