Once there lived two mermaid siblings near Anisland called the Mercy Island , Their names were Ken and Laila

They were actually separated from their mother when they were really small during a war, When they were about 7-8 years old and now the two of them live with the other groups of mermaids. Once on laila's mother's birthday Laila thought of mother and was very sad , while she was crying brother Ken came up to her and asked her why she was crying ,

She said, 'I want see mother'. But mother is not alive said ken , laila got up angrily and shouted at him "Mother is alive". That day evening ken came up to Laila and apologized to her and said, "I will help you find mother. Suddenly an idea flashed into Ken's head . When mermaids were born itself they were gifted by a magical blue moon ring which can find something or someone, or do any other kind of magic.

So, Ken replied, "we can use the moon ring to find mother and ask our friend Aquota for help too". One day Ken , Laila and Aquota went deep into the sea to find their mother but they did not find their mother instead they found a dragon bracelet which their mother had it in her wrist all the time.

So, they decided to take it home and test what it does (they really did not know what it did). Once they reached home when they tested the bracelet. It had done nothing unusual. One night while Ken and Laila were sleeping they felt a very harsh light falling on their face. They got up they looked at the sky but the light was not coming from the sky but for sure from the dragon bracelet. Laila got up and sat

on a large rock and pointed the dragon's head to the sky just when a magic happened, a large water dragon came up from the bottom of the sea.

And again the bracelet started shining so Laila pointed The dragon's head to the center of the dragon's stomach and the dragon burst into blood and just then their mother appeared and said, "Thank you children for saving me , I will never forget this moment" .

And So, They Lived Happily Ever After.
