2023
HAPPY NEW YEAR

Fresher Parent Observation

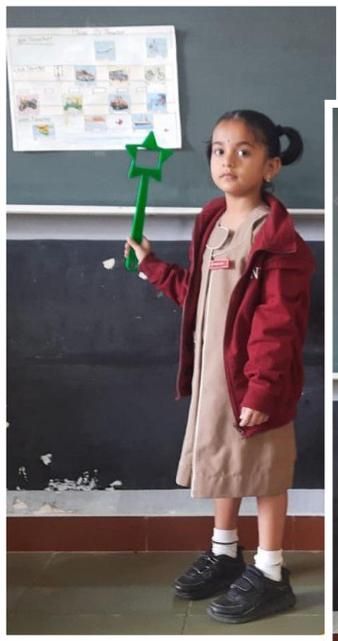

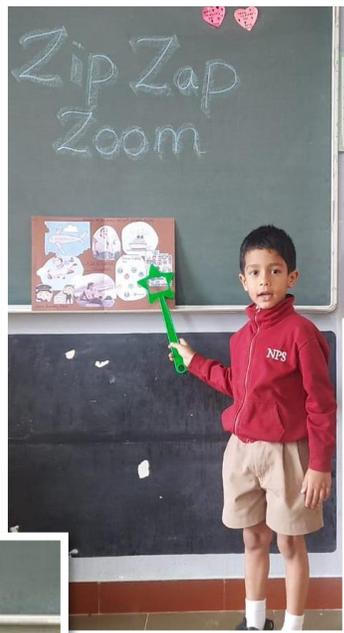

The month started with the observation for the Montessori freshers. The much awaited moment where the parents got to see their little ones in their environment working in an organized, methodical manner and interacting with their peers, much to the parents surprise.

Zip zap zoom

'Zip zap zoom' a presentation on the topic of 'Transport' was conducted by Kindergarten 1. Each child made a collage of various means and modes of transport, people associated with various means of transport, the job they do and safety rules. They were full of pride, as they confidently and enthusiastically made their presentation. This was another opportunity for our little ones to enhance their public speaking and social skills.

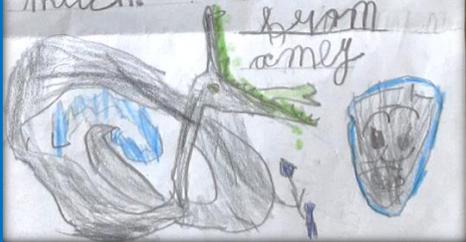

Letter from Students

Dear kidsa mam
I like your drawings
I like to spend time
with you. your classroom
is very colorful.
You made black mamba
snake for me. That was
amazing. one day
I saw you and stopped
crying. I love you very
much.

from
amey

In the age of electronic mail, where letter writing is a dying skill, the Montessori seniors wrote a letter to teachers. Accompanied by their parents they went to the nearest post office and posted the inland in the mailbox. The teachers were needless to say touched to receive the letter and the children were equally amazed to see their letters reach school. This was yet another way our little ones demonstrated the Love (value-in-focus) they feel for their teachers:

Dear sir
i wish you a merry
christmas and a
happy new year.
i love your songs.
my best songs are
blue bird and
mister sun. i love
you.
anjan pansari

My dear Anjana Mam
happy new year.
2023

I will be going
to uttara
khand during
holidays
happy holidays
mam

Dear Maana Mam,
Thank you for teaching me
everything.
Wish you and your family
a happy new year.

With love,
Anjan

Math-e-magic

*'I hear and I forget,
I see and I remember,
I do and I understand'*

True to this, the students of Kindergarten 2 consolidated their learning of the concept - addition by participating in 'Math-e-Magic' - the learning center. The parents for the invitees for the same and were pleasantly surprised to witness their 5-year-olds work collaboratively, provide peer guidance when required, take responsibility of winding up and keeping the station prepared for the next group of classmates.

Professions

The Montessori children were introduced to the topic of 'Professions' through discussions and various activities done in class across all three age groups. A pilot, a dentist and a home baker were invited to talk to the seniors and share their experiences.

The seniors also interacted with the school gardener. These sessions enthused the children and ignited their curious minds.

When I grow up...

When We
Grow Up

As a befitting culmination to the topic of 'Professions', the Juniors came dressed up as people from different professions and spoke a few lines.

Christmas Celebrations

To usher in the festive season and spread love and joy, Christmas was celebrated with much zeal and warmth at NPS Koramangala. Red, green and white were the colour of the day. The Montessori Seniors enacted the story of the birth of Jesus Christ. The auditorium echoed with Christmas carols and cheer as Santa brought sweet treats for the children. Back in class the Early Learners enjoyed sharing their snacks and played games. The teachers gave eggless cupcakes to the children as a special treat and the year ended with fun, laughter and enjoyment.

Humour in Campus

A Montessori child asked his teacher, "Do you like ghee n jelly because your name is Gitanjali?"

Teacher was explaining about herbivores and carnivores animals in a KG2 class.

She explained that animals who eat meat are called carnivores and those who do not eat meat are called herbivores.

Teacher then asked the class, "what are those animals called who eat both?"

One child immediately got up and enthusiastically answered 'human beings'.

See you soon!
