Early Years

July Newsletter

The Early Learners are back. Every day they fill the school with their enthusiastic buzz, easy laughter and happy smiles.

Best wishes for the new session! Here's to learning, making friends, and having fun!

The first step towards connecting home and school was to schedule parent orientations for all the age groups of the Early Years. Between 28th May, 2022 and 11th June 2022 five virtual orientations were conducted, keeping the Covid protocols in mind. The teachers presented a bird's eye view of a typical day of an Early Learner in GMC Koramangala. The orientation helped parents to understand the teaching - learning methodology implemented in school especially as the children transition from the online to the in-campus mode of learning.

Of the many topics dealt with during the orientation, the ones that stood out are the early childhood development and the importance of parental participation in setting everyday routines. To reinforce what was discussed, tips on promoting and supporting positive behaviour at home, setting up of a healthy, systematic and organized routine with regard to work, play and eating habits were also shared. Parents were also advised to be mindful of their child's screen time and follow healthy eye habits like the 20-20-20 rule.

The importance of parents and teachers partnering and collaborating with each other to help all children in the crucial years of their development was the focal point of the orientations.

international yoga day

An annual celebration dedicated to giving the gift of yoga to each and every person in the world was celebrated by the students and teachers of Early Years on Tuesday, 21st June 2022 with great enthusiasm.

international yoga day

"The child is both a hope and a promise for mankind." - Dr. Maria Montessori.

Children are born with a natural inclination toward compassion, empathy and kindness but these seeds must be sown and nurtured.

Keeping this in mind we kept 'Courtesy' as the 'Value In Focus' for the month of June. Songs, games and stories on why and how to be courteous were a part of our regular classes.

Children were seen being courteous to each other, be it sharing stationery, waiting for their turn, speaking politely to others or using the magic words.

Tip :- One of the most important jobs we have as teachers and parents is to model the right behaviour, interact in a polite manner with everyone and thereby teach children to be courteous and treat others with respect.

Fun with colours!!

Colours being the most interesting and beautiful part of nature, was the chosen topic for the beginning of the year in Montessori . Games and activities revolving around colours fascinated the children and kept them glued to the presentations given in class . Songs, dance, videos and artwork planned for the month ensured that children had 'Fun with Colours' in their classes.

Fun with colours!!

founder's day

NPS Koramangala steps into its 20th year!! The big happy family celebrated its 20th Founder's Day with Dr.(Mrs.) Santhamma Gopalkrishna, Dean - NPS Group of Institutions, NAFL, GMC & TISB; the Principal, Ms. Jyotsna Nair; and all staff members. The celebration started off with an invocation and lightening of lamp by Dr. (Mrs.) Santhamma Gopalkrishna and Mrs. Jyotsna Nair. In her address to the faculty members, the Dean lauded everyone for their immense contribution and resilience during the darkest days of the pandemic. She narrated anecdotes from her life; with an underlying message to all on the need to adapt to change. She specially congratulated the members of the faculty who have been with the school since its inception in 2003-04, who continue to serve the institution with dedication and pride.

Reminiscence filled the air as everyone nostalgically watched a picture gallery of the school's first triennial events beginning way back in 2003: AHAN, Sports Day, KHOJ, the first Graduation Day and many more. A musical ensemble and a fun facts quiz relived those unforgettable moments that never fail to tug at the heartstrings. The day was reminder that in a short span of two decades, NPS Koramangala has carved a niche for itself in the realm of education.

Humour In Campus!!

A KG1 child asked the teacher, "What are you having for breakfast?"

She answered, "I am having porridge."

The child immediately recalled the story of 3 bears and said "You look like one of the bears eating the porridge".

A Montessori Senior was working with the constructive triangles.

Having joined 2 triangles to make a trapezium, he exclaimed, "The trapezium shape is like a rectangle with 2 corners stretched and the other 2 corners squeezed in".

Good Bye. We will be back with our next edition in August.
