MONTESSORI NEWSLETTER

EDITION I 2026-27

WELCOME

Our campus is humming with purpose, discovery, and the vibrant energy of a community fully in its groove. To both our returning families and the new members who have joined us this season, thank you for making these first few months so dynamic and memorable. By now, our students have settled smoothly into the daily rhythms of Montessori learning, turning every classroom into a bustling hub of curiosity, independent exploration, and meaningful collaboration.

In this issue, we are excited to showcase how that momentum is taking shape across our community. From celebrating the early achievements and personal milestones of our students and teachers to reflecting on our major events so far, this update offers a window into the magic of hands-on, self-directed learning. Dive in to explore the highlights of the term and see how our young learners continue to inspire us every single day.

HAPPY READING!

FRESHER ORIENTATION

The 1st event for the academic year 2026-27 began on April 4th, with the parent orientation for Montessori freshers. The event served as a collaborative first step toward nurturing our young learners' growth, wellbeing, and transition into school life.

Our Principal, Ms. Jyotsna Nair, took the stage to highlight essential habits for early childhood development. She emphasized the foundational role of a structured daily routine, consistent sleep schedules, and reduced screen time in a child's cognitive and emotional growth. Ms. Nair also introduced the concept of giving children sufficient "Vitamin N"—the healthy art of saying "no" to build resilience, self-regulation, and emotional strength.

JUNIOR ORIENTATION

The parent orientation for juniors and seniors was held on 13th June. The orientation featured an engaging and interactive discussion on key aspects of early childhood, including managing separation anxiety, nurturing a love for reading, understanding parenting styles, and supporting language and speech development.

SENIOR ORIENTATION

The orientation fostered a strong sense of togetherness and a shared commitment to supporting every child's growth and success.

FIRST DAY VIBES

On 5th June, our freshers took their first steps into their new 'home away from home'. The staggered timing helped the freshers find their footing at their own pace. The focussed guidance from the ever supportive and vigilant teachers and the prepared environment eased them into their new surroundings. We look forward to a joyful year of growing, learning, and blossoming together!

WELCOME BACK TO SCHOOL

The juniors and seniors returned to school, after two months of vacation, on 11th June. The classrooms buzzed with lively chatter and laughter as they arrived, eager to reconnect with friends and teachers. They looked sharp in their crisp new uniforms, ready to share stories and begin the new academic term with enthusiasm.

100%

ATTENDANCE

Heartiest congratulations to Tanishka Uttaray and Saanvika Singamaneni for achieving 100% attendance. We applaud their dedication and wish them continued success as they inspire others with their exemplary attendance record.

International Yoga Day

Our children celebrated International Yoga Day on 22nd June with joy and mindfulness! The seniors and juniors gathered in the auditorium for a group session led by our Yoga teacher. They listened intently to the instructions and performed simple asanas and breathing exercises together. It was a wonderful morning of learning to balance, focus, and work as a team.

YOGA

Our freshers enjoyed a cozy yoga session filled with soft music, gentle movements, and cheerful smiles, exploring fun poses together. Amid stretching, balancing, and giggles, it was a wonderful day of health, harmony, and happy moments; laying a foundation for mindfulness and well-being from an early age.

FRESHER PTM

The Parent-Teacher Conference was held on 11th July. Teachers shared anecdotes and kept the parents abreast on the way the freshers have made a transition to school and the Montessori environment. Teachers also discussed the progress made by individual children, their needs and ways to support learning at home.

Parents in turn shared valuable insights about their child, helping teachers understand and support them better at school. Parents were highly appreciative of the detailed and supportive feedback given, fostering a meaningful home-school partnership.

SENIOR SHOW N' TELL

Seniors took part in an engaging Show and Tell session on the topic - Human Body, the same was held on 13th July. Each child confidently presented the structure and function of a body part. The activity strengthened their understanding of human anatomy while honing their public speaking and presentation skills. Their enthusiasm of the audience and thorough preparation by each child, made the session both educational and inspiring.

SENIOR OBSERVATIONS

Parent Voices

1. My child works independently and takes on responsibility. He has become confident and demonstrates polite behaviour.
2. The discipline and focused attention with which the children completed their assigned work is appreciated.

Class observations remain one of the most cherished traditions in our Montessori community. This 'once in a year' opportunity given exclusively to the parents of Montessori students, offered them a precious chance to watch their child engage in purposeful work and connect with classmates in real time. Parents were moved by the quiet order, self-discipline, and independence woven into their child's everyday routine. They truly appreciated this beautiful glimpse of deepening focus and a genuine love for learning shining through — the true essence of Montessori brought to life.

INDEPENDENCE DAY CELEBRATIONS

The 80th Independence Day was celebrated with immense enthusiasm by our young learners who came dressed in traditional white kurta. They proudly wore badges and tricolour wristbands to mark the occasion.

The day was filled with heartwarming performances, ranging from patriotic songs and energetic dances to moving speeches on India's path to independence. Through their speeches, our children emphasised on simple daily habits contributing to a cleaner, brighter nation. Some children were dressed up as legendary freedom fighters to pay tribute to our national heroes.

The auditorium echoed with 'Jai Hind' & 'Vande Mataram' as children and teachers raised their voice in salutation to our motherland, India.

Value of the month

Our students have been practicing to express their gratitude by saying a big "Thank You!" to the world around them. They learned how showing kindness and appreciation makes everyone feel happy and loved!

Freshers made colorful collage of the things they love most. Juniors drew beautiful pictures of what makes them happy. Seniors wrote sweet notes and stories from their hearts.

It is wonderful to see children bloom with smiles, kind words, and big hearts!

Turning Pages, Building Futures: Our Year-Long Reading Adventure Begins!

Montessori is excited to launch a year long Reading Programme designed especially for our young learners. Reading builds more than literacy — it nurtures imagination, curiosity, and a lifelong love of learning. Through age-appropriate activities tailored to all three age groups, children will strengthen listening skills, vocabulary, expression, and social skills while discovering the joy of books. We invite parents to partner with us through this journey with reading activities and story-sharing evenings at home. Here's to a year filled with stories, smiles, and little voices reading aloud!

Building vocabulary, story by story!

Learning made fun, one treasure at a time!

Phonics in action – sounds, words, and smiles all around!

Wellness Wonders

Wellness Wonders is our year-long health and wellness programme designed to nurture healthy habits in children. Through engaging activities focused on cleanliness, personal hygiene, fitness, nutrition, and overall well-being, the programme aims to instill healthy habits from an early age.

Scrub, rinse, repeat!

Achoo, the right way!

From head to toe, we learned it all!

PARENTING CORNER

THE GOLDEN TRIANGLE

CHILD • PARENT • SCHOOL

In Montessori education, the relationship between the child, parent, and school is often called the Golden Triangle — a strong partnership built on trust, communication, and shared understanding. When these three elements work together in harmony, children feel secure, confident, and supported both at home and in the classroom.

At school, children are guided towards independence, responsibility, and joyful learning through hands-on experiences. At home, parents strengthen this growth by offering encouragement, consistency, and opportunities for children to participate in everyday activities with confidence.

Together, parents and educators create a nurturing environment where children feel valued, understood, and inspired to explore the world around them. A child thrives when they see the important adults in their lives working together with patience, respect, and a common goal — helping them grow into capable, compassionate, and curious individuals.

When home and school walk hand in hand, every little step becomes a meaningful journey of growth.

A quick tip:

Align Expectations of Independence: If your child is capable of putting on their shoes and clearing their work space at school, they should be doing the exact same thing at home. Be aware of the tasks your child can perform independently, avoid doing those tasks for them. Catch yourself when you offer help out of habit.
