

A New Chapter of Learning, Milestones and Magic...

Welcome to the second edition of **Tidings**. As we step into another exciting chapter of the school year, we bring you a collection of moments that celebrate the spirit of our Primary years—moments of discovery, creativity, wellbeing, collaboration and joy. From the magic of Melovia: Matilda Reimagined to enriching field trips, meaningful assemblies and a week dedicated to wellness, our children have continued to learn, explore and grow in wonderful ways.

This edition is a celebration of stepping up—finding our voices, embracing new experiences, making thoughtful choices and discovering the many ways in which we can shine. So, turn the pages and join us as we revisit the laughter, learning, achievements and little moments that have made this term special. Here's to stories that inspire, memories that linger and young minds that continue to soar!

– Team KRM

Melovia: Matilda Reimagined – A Little Magic on Stage

Some school moments stay with us long after the curtains close. *Melovia: Matilda Reimagined*, our school's first-ever musical production, was one such moment. Bringing the much-loved story of Matilda to life, our young performers took audiences on a joyful journey of laughter, music, friendship, courage and resilience. From Matilda's love for books and learning to her determination to stand up for what is right, the story celebrated curiosity, resilience and the power of finding one's voice.

The production was filled with memorable moments—from Matilda's mischievous green-hair prank and the hilarious Wormwood Motors sequence to Bruce Bogtrotter's legendary chocolate-cake episode and the powerful *Revolting Children* finale. At its heart was the beautiful bond between Matilda and Miss Honey, reminding us how much a child can flourish when someone believes in them.

For our students, however, the magic extended far beyond the stage. It lived in the rehearsals, shared laughter, nervous moments, learning lines and songs, teamwork and friendships. Every child contributed to making Melovia a true celebration of our school community.

The warm and enthusiastic response from parents and staff was a wonderful affirmation of the students' creativity, effort and spirit.

Melovia was more than a musical. It gave our children a stage to dream bigger, find their voice, work together and discover what they are capable of. **The curtain may have closed on *Matilda Reimagined*, but the magic of Melovia has just begun.**

Wellness Week 2026: Growing Healthy, Happy and Responsible

Held from **3rd to 8th August 2026**, Wellness Week encouraged students of Grades 1–5 to explore the many dimensions of wellbeing and make mindful choices for a balanced life.

The week began with **Physical Wellbeing Day**, with an energetic Zumba session that celebrated the joy of staying active. **Mental Wellbeing Day** provided opportunities for quiet reflection through music, free drawing and a Gratitude Wall, helping students recognise and express positive emotions.

Through engaging stories, saving-jar activities and budgeting challenges, **Financial Wellbeing Day** introduced students to saving, budgeting, differentiating between needs and wants and responsible decision-making. **Civic Responsibility Day** encouraged students to think beyond themselves through discussions on littering, conservation and responsible citizenship, culminating in the *My Action Matters Tree*.

The week concluded with **Digital Wellbeing Day**, where students explored healthy screen habits, sleep, focus, distractions and responsible technology use through relatable scenarios and personal commitments.

Wellness Week reminded students that wellbeing is built through the **small, mindful choices we make each day—for ourselves, for others and for the world around us.**

Grade 1 Experiences the Magic of Theatre at Ranga Shankara

On September 7, 2026, our Grade 1 students stepped into the enchanting world of theatre during an educational field trip to Ranga Shankara, Jayanagar.

Accompanied by their teachers and akkas, the students watched *TILA*, a captivating German theatre production created for young audiences through an international artistic collaboration. The experience introduced them to the magic of live storytelling, where movement, expression, sound and imagination came together on stage.

The visit encouraged students to observe, wonder and appreciate the performing arts while experiencing a form of storytelling beyond the classroom. Their enthusiasm and curiosity made the morning truly memorable.

The students returned to school carrying with them wonderful memories of a morning filled with theatre, discovery and joy. Learning can happen anywhere—and sometimes, the best lessons take place right on stage!

A green paperclip icon is positioned at the top left of the page, as if holding the paper together.

A Day of Discovery at Cubbon Park

Learning came alive for Grade 2 as the students stepped beyond the classroom into the green, open spaces of Cubbon Park on 25th August 2026.

The visit offered the children a wonderful opportunity to explore nature firsthand. Surrounded by lush greenery, towering trees and expansive open spaces, the students felt excited and curious as they discovered the beauty of their natural surroundings. One of the day's most anticipated highlights was the toy train ride, which brought plenty of smiles and excitement. The children also enjoyed playing together amidst nature, making the most of the fresh air and spacious environment. Their cheerful enthusiasm and curiosity made the park come alive with the joy of exploration.

The adventure continued with a visit to the aquarium, where the students observed a variety of aquatic life. This experience encouraged them to learn through careful observation, turning an ordinary outing into an engaging learning experience. The visit to Cubbon Park was more than just a day outdoors—it was an opportunity for the children to learn, explore, play and connect classroom learning with the world around them. With happy memories, new experiences and curious minds, Grade 2 returned from the trip with plenty to talk about and cherish.

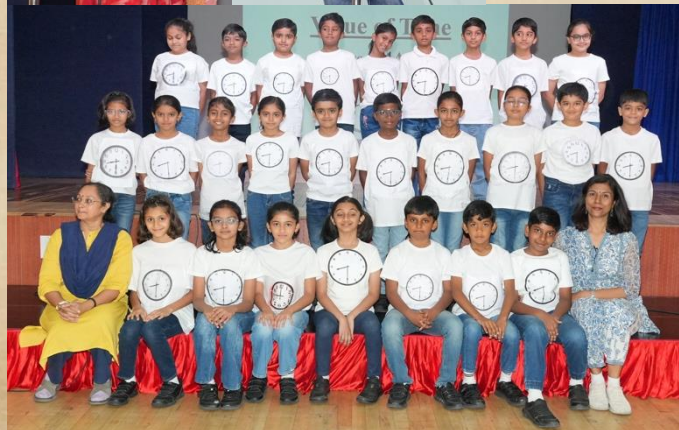

Every Moment Counts – Grade 4A Class Assembly

"Tick... tick... tick..." set the tone for Grade 4A's engaging class assembly on "The Value of Time," held on 6th August in the school auditorium.

Through theatre, music, dance, poetry and interactive learning, students explored the importance of using time wisely. The English skit, *"I'll Do It Later!"* followed Timpu, a habitual procrastinator, as he discovered how delaying his tasks could lead to stress and regret. His realisation—*"No more 'later'!"*—highlighted the value of discipline and timely action.

The assembly further explored procrastination, time-tested proverbs and the fascinating history of timekeeping, from ancient water clocks and sundials to Huygens' pendulum clock. Multilingual presentations, news, a Hindi poem and an interactive quiz added variety to the programme.

The assembly concluded with a musical performance and a message encouraging everyone to become "Time Champions." Through confidence, creativity and teamwork, the students delivered a meaningful reminder: time waits for no one, so make every moment count.

One Classroom, One Nation – Grade 4B Class Assembly

What happens when a classroom comes together? A little noise, laughter, and something truly beautiful: cohesion. Grade 4B brought this to life in a vibrant assembly celebrating India's diversity and unity.

Students represented different states, bringing their regional languages, food, traditions and talents to the stage. From Kerala's *Mohiniyattam* and Punjab's energetic music to Karnataka's tech-tradition blend, Rajasthan and Gujarat's playful exchanges, the spirited Seven Sisters, and Sikkim's humorous entry as the "only brother," each state added a unique flavour. Together, they showed that despite our differences, we belong to the same family.

The assembly also tackled conflict resolution through a simple skit about sharing a water bottle. It highlighted an essential lesson: a strong community isn't one where everyone agrees, but one where people listen and respect each other through disagreements.

An interactive quiz then tested Grades 1 to 5—and teachers too—on the featured states and traditions. Closing with a tribute to the national flag, Grade 4B reminded everyone that diversity isn't about being identical—it's about belonging together. Their performance was a joyful celebration of the unity that makes India one extraordinary family.

Choices We Make - Grade 3A Class Assembly

What we read shapes our thoughts, decisions and ultimately, our character. Grade 3A explored this theme in a thoughtful class assembly titled "The Book of Choices", celebrating the quiet power of books.

The assembly opened with Malala Yousafzai's quote, *"One book, one pen, one child, and one teacher can change the world"*, and highlighted the Word of the Day, *"Perspective."* Following the morning news, students showcased how reading cultivates strong values and wiser decision-making through several performances. A lively rendition of *"Try Everything,"* encouraged perseverance and learning from mistakes. A humorous three-part story demonstrating how books introduce new ideas and guide daily choices and an energetic dance routine celebrated the pure joy of reading. The event wrapped up with an interactive quiz that engaged students across grades.

Grade 3A's vibrant assembly was a meaningful reminder that every book we open helps shape the person we become.

Together We Achieve More! – Grade 3B Class Assembly

Opening with Helen Keller's message that alone we can do so little, but together we can do so much, Grade 3B brought the spirit of teamwork, kindness and inclusion to life through an engaging class assembly. The young anchors introduced the theme through relatable school scenarios, followed by the news segment and the Word of the Day - *camaraderie*, defined as friendship, trust, and teamwork among people.

Highlights of the morning included a lively Kannada skit showing how collaboration makes challenging tasks easier, as well as energetic dance routines and a cheerful song celebrating the joy of friendship. The students also shared their five golden rules for strong teamwork, encouraging everyone to respect others, listen, lend a helping hand, include rather than exclude, and celebrate each other's successes.

Emphasising that successful teamwork relies on contributing unique individual strengths rather than everyone doing the exact same thing, the assembly concluded with an interactive quiz and a heartfelt vote of thanks to the Principal, teachers, and support teams. Grade 3B left everyone with the powerful reminder that when we work together and care for one another, we can achieve more.

Celebrating Hindi Diwas – Grade 3C Class Assembly

Grade 3C of National Public School, Koramangala, celebrated Hindi Diwas with a vibrant special assembly that brought the richness of Hindi language and literature to life.

The program commenced with the Word and Thought for the Day delivered in Hindi, followed by a news segment presented in English. The centerpiece of the assembly was an imaginative, interview-style enactment highlighting three iconic literary figures: Munshi Premchand, Sumitranandan Pant, and Subhadra Kumari Chauhan. Through confident performances, the young students acquainted the audience with the lives, works, and lasting contributions of these eminent writers.

The celebration kept its momentum with a melodious song and an energetic dance performance, filling the morning with rhythm and colour. Following the creative performances, an interactive Hindi quiz sparked enthusiastic participation as students eagerly tested their knowledge of the language.

By artfully blending literature, music, movement and drama, Grade 3C's assembly offered students an engaging way to experience the joy of language learning. The event served as a memorable reminder that language is far more than just a tool for communication—it is a window into culture, stories and shared imagination.

Musings

The Forgotten Kingdom: Unveiling Indonesia's Raja Ampat

When people hear “Indonesia,” they often picture Bali and its beautiful beaches. But hidden off the coast lies Raja Ampat—a rustic paradise whose name literally translates to “Four Kings.” Legend has it that the islands were born from four magical eggs that hatched into royalty (a pretty solid origin story, if you ask!). Beyond the folklore, this remote gem boasts crystal-clear waters and an absurdly rich underwater city, housing over 75% of all known coral species. Since it takes a bit of an adventure to get here, it remains an untouched sanctuary, mostly frequented by brave researchers, scuba divers and lucky sea turtles.

Of course, keeping a paradise secret in the modern world isn't easy. Even this remote kingdom faces the heat of global warming and climate change. Thankfully, superhero conservationists and local communities are stepping up with coral-saving campaigns and nursery projects to keep the reefs thriving. Raja Ampat is a glowing reminder of how vibrant our planet can be when we look beyond the typical tourist spots. Do make it a point to visit this extraordinary marine wonderland at least once in your lifetime—bon voyage, and may you have the experience of a lifetime!

-Ms. Neha V.

Celebrating our student achievements...

Let us take a moment to celebrate our students' achievements. NPS Koramangala is immensely proud of its young achievers who have worked with dedication, perseverance and passion, continually striving to reach higher and go beyond.

Laya Vikram of Grade 3C emerged as the winner of the Karadi Tales Global Young Narrator Contest 2026 in the 7-8 age category. With over 500 entries from across India, Laya's achievement is truly special. Her expressive narration of *Mango on the Roof* brought the story and its characters vividly to life.

Jasmeh Khalsa of Grade 4D secured 3rd place in the girls GC-67 category in the inter-school Karate Championship, conducted by India's largest Karate School - OSK Federation of India on 22nd August 2026.

Rivaan Agarwal of Grade 2A was among 15 children selected from over 100 auditions to perform at the WKC Showcases on 6 September 2026 at Dr C. Ashwath Kala Bhavana, Bengaluru. Rivaan presented "Instrument & Poetry Recitation", showcasing his keyboard skills, expressive narration and confident stage presence.

Thank You

We hope you enjoyed reading Tidings, our second edition, and that these pages offered you a glimpse into the many moments of learning, creativity, discovery and celebration that have shaped our Primary years. Every story featured here is a reflection of the enthusiasm, effort and spirit of our students—their curiosity, their creativity and their courage to step up and discover something new.

A heartfelt thank you to our students for filling these pages with their ideas, achievements and joyful experiences and to our parents, teachers, students and management for their constant support and encouragement. As we turn the final page of this edition, we look ahead with excitement for KHOJ, our interdisciplinary exhibition - bringing together Science, Social Science and Mathematics. We eagerly anticipate watching our young learners explore, question, make connections and transform their curiosity into meaningful discoveries.

We look forward to your continued support and encouragement as our children embark on yet another exciting journey of learning. Until we meet again, may there always be more questions to ask, ideas to explore, stories to share and dreams to pursue. Here's to more learning, more wonder and many more moments to cherish together.
